ABOUT US

Get to Know Us

At Capricorn Life Sciences, we are dedicated to pushing the boundaries of innovation and excellence in the life sciences industry. Capricorn was established in 2009 in The Netherlands with a vision to improve global health through cutting-edge research and development, specialized in creating advanced products that address the evolving needs of the healthcare sector.

Every year Capricorn participates at several pharma events such as: **EuroPLX, PharmaVenue, Vitafoods, BEPharma and CPHI Worldwide.**

We offer Products With Valuable Unique Selling Points

Capricorn Life Sciences is a trusted B2B provider of unique, high quality products to many healthcare companies around the world.

Our product portfolio of food supplements, FSMP's and medical devices covers a broad range of therapeutic indications, including: gynecology/women's health, pediatrics, gastroenterology, orthopedics, respiratory and CNS. The range includes unique galenic presentations such as tablets, capsules, topical gel, stickpacks, controlled release tablets, nasal sprays and oral sprays.

Efficacy and safety of our products have been proven in clinical trials and/or are supported by approved EFSA claims. Manufacturing is performed by various European GMP and/or HACCP approved factories, ensuring a guaranteed and constant high quality.

The products can be marketed under our ready brands but we are open to discuss supply under private label as well. Complete EU regulatory dossiers and full regulatory support are provided.

Our Values

RESPECT

Making people and their well-being our priority is our way of showing respect to life, providing safe and effective products that offer solutions to unmet needs.

RELIABILITY

Working closely with industry professionals as a reliable partner to optimize the quality of our offerings and enrich our portfolio.

QUALITY AND INNOVATION

Unique nutraceutical combinations of active substances for an innovative therapeutical approach and better results.

AMBITION

Started from tradition fired up with enthusiasm and zeal while keeping an eye on the future that helps us grow each and every day.

Our Mission

Capricorn Life Sciences supplies unique nutraceutical formulations creating effective synergies for an innovative therapeutical approach. Our customers can count on a diversified product portfolio covering different therapeutic areas supported by clinical evidence.

CERVACARE vaginal spray

CERVACARE is capable to protect and sooth the cervico-vaginal mucosa and to build a barrier against external bacterial agents. It is particularly useful to treat disorders linked to HPV infection.

CERVACARE is indicated in:

- Latum condylomas treatment
- Dysuria
- Alterations due to HPV
- Dyspareunia

Unique selling points

- ✓ **Treatment of alterations due to HPV**
- ✓ **Vaginal ridges**
- ✓ **Irritations and sores**

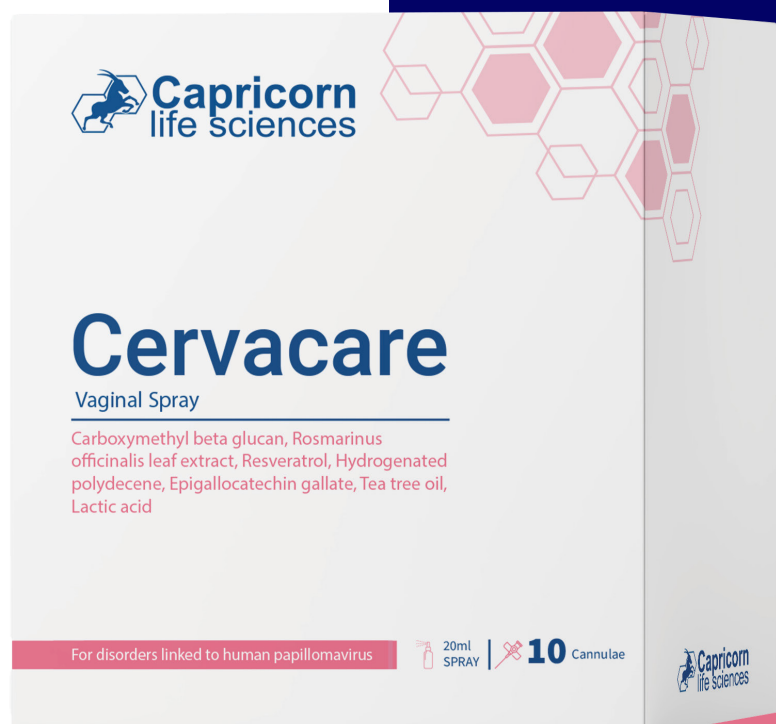

Ingredients:

Carboxymethyl Betaglukan, EGCG from green tea, Resveratrol, Curcuminoids from curcuma longa

Medical Device
Class I

Box containing
1 spray bottle
of 20ml and
10 single-use
applicators with
cannulas

Shelf life zone II:
24 months

FEMAFERRIN oral tablets

FEMAFERRIN contains Lactoferrin, a circulating protein with a very high binding affinity for iron, providing antimicrobial properties and restoring iron localization through the direct or indirect modulation of hepcidin and ferroprotein synthesis, thus increasing hematological parameters of iron deficiency and iron deficiency anemia. It decreases serum IL-6 levels, thus inflammation, and prevents preterm delivery.

FEMAFERRIN is indicated in:

Iron deficiency

Iron deficiency anemia

Unique selling points

- ✓ **Lactoferrin is superior to oral iron sulphate**
- Lactoferrin lacks of side effects**

Ingredients:

Lactoferrin

Box
containing
20 tablets

Shelf life zone
IVb: 36 months

Food Supplement

FEMAFERTI vaginal gel

FEMAFERTI creates an optimal environment for spermatozoa, helps maintaining a suitable pH for natural conception and is characterized by seminal fluid-compatible osmolality.

FEMAFERTI is indicated in:

- Unexplained infertility
- Low sperm survival
- Reduced cervical mucus receptivity
- Low production
- Abnormal pH

Unique selling points

- ✓ **Mimics seminal fluid composition generating a comfortable environment for spermatozoa and giving adequate energy for sperm motility, vaginal ridges, irritations and sores**
- ✓ **A clinical test has been performed with the product**

Ingredients:

Sugars, Mineral salts, Creatine, Carnitine, Hyaluronic acid and Lactic acid

Clinical trials available

Box containing 6 single dose applicators of 5 ml each

Shelf life zone II: 24 months

Medical Device
Class I

FEMAFERRO tablets

FEMAFERRO tablets is a food supplement with Iron (Micronized Super dispersed Ferric Pyrophosphate), Folic acid, Vitamin C and Copper, indicated in cases of reduced dietary intake or increased need of these nutrients, especially during pregnancy and breastfeeding.

FEMAFERRO is indicated in:

 Iron deficiency

Unique selling points

- ✓ **Safety, no side effects**
- ✓ **Bioavailability and high tolerability**
- ✓ **High compliance, once daily dosing**
- ✓ **Gluten and lactose free**

Ingredients:

Vitamin C, Iron, Copper, Folic acid

Box containing 30 tablets

Shelf life zone
II: 24 months

Food
Supplement

FEMAFLOR vaginal gel 1% and 3%

FEMAFLOR gel contributes to a natural recovery of the vagina's bacterial ecosystem. Furthermore, it promotes the creation of a hostile environment against the proliferation of negative bacterial and/or fungal agents such as *Candida Albicans* in case of persistent conditions and is capable to provide a fresh comfort from irritations.

FEMAFLOR gel is indicated in:

- Reoccurring mycotic and/or bacterial vaginal infections
- Chronic Candidiasis prevention and/or treatment
- Sores and burnings
- Dysuria

Unique selling points

- ✓ **Contains Halobor[®], an innovative composition which provides a targeted action**
- ✓ **Comfortable and easy to use**
- ✓ **Pleasant odour**

Ingredients:

Halobor[®] (Hyaluronic Acid Sodium Salt, Gamma-Cyclodextrins, Boric Acid 1%), D-Panthenol, Ribes Nigrum Fruit Extract, Aloe Vera Barbadensis Leaf Juice, Tocopheryl Acetate, Calendula Officinalis Flower Extract, Lactic Acid, Lavandula Angustifolia Flower Water, Chamomilla Recutita Flower Extract

Box containing 10 single-use applicators of 5ml each; and

Box with 1 multiuse tube of 30ml

Shelf life zone II: 24 months

Medical Device
Class IIa

FEMAFLOR vaginal ovules

FEMAFLOR ovules is helpful in restoring the natural pH of the vagina and the combined action of its components also reduces burning, itching and irritation, even in case of fungal infection.

FEMAFLOR ovules is indicated in:

- Vulvovaginitis
 - Bacterial
 - Fungal
 - Caused by yeast infections
- In case of increase risk of infection
 - Use of public restroom
 - Use of swimming pools and gyms
- Vaginal dryness

Unique selling points

- ✓ **Restoration of vaginal flora**
- ✓ **Prevention and control of vulvovaginitis**
- ✓ **Reduction of vaginal itching, burning and irritation**
- ✓ **Preventing and treating non-specific vaginal dryness**

Ingredients:

Boric acid, Polycarbophil, Lactic acid, Tocopheryl acetate, 18-beta-glycyrrhetic acid, Tea tree oil, Phosphatidylcholine and Semisynthetic triglycerides

Medical Device
Class IIa

Box containing 10
vaginal ovules of 2g
in blister

Shelf life zone
II: 36 months

FEMAGINAL monodose gel

Femaginal gel is useful in case of fungal and/or bacterial vaginosis, vaginal and vulvar dryness and in all situations in which is necessary a lenitive action giving relief to side effects related to a scarce vaginal lubrication as irritation, itching, burning, redness and hypersensitivity. It can also be used in menopausal and in conjunction with estrogens and or progestin therapies (e.g. contraceptive pills and/or antibiotics).

FEMAGINAL monodose gel is indicated in:

- ✓ Vaginal dryness
- ✓ Vaginal discharge/fluid reduction
- ✓ Vaginal atrophy
- ✓ Itching, burning and irritation

Unique selling points

- ✓ **Menopausal women**
- ✓ **Young women with hormonal problems**
- ✓ **Women with fungal or bacterial vaginosis**

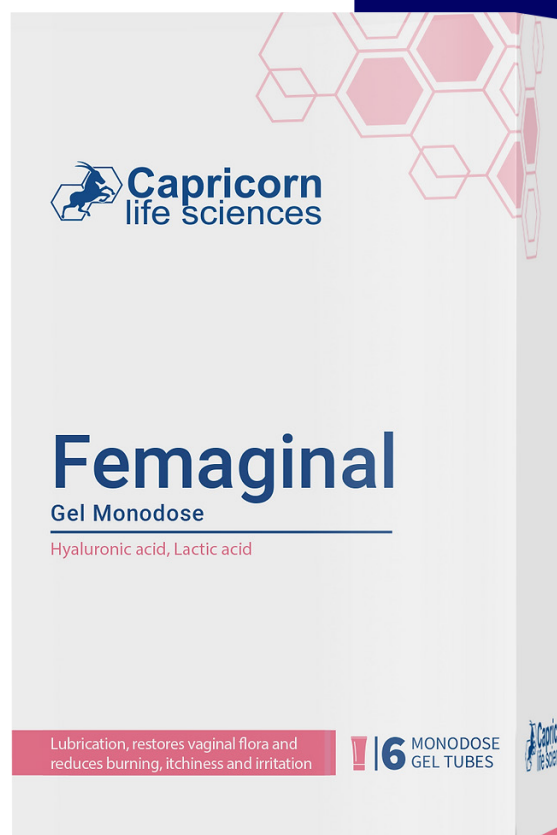

Ingredients:

Hyaluronic acid, Lactic acid

Box containing 6
disposable vaginal
applicators of 5 ml

Shelf life zone II:
24 months

Medical Device
Class IIa

FEMAGINAL vaginal ovules

FEMAGINAL vaginal ovules are used for vaginal dryness, inflammation, infections, itching, irritation and burning of the vagina

FEMAGINAL vaginal ovules is indicated in:

FEMAGINAL vaginal ovules are useful in preventing and treating non-specific vaginal dryness as well as atrophic vaginitis. Adjuvant in case of irritation, burning and vaginal discharge as well as in vaginal and flogig and infectious diseases. Suitable for women of childbearing age, menopause and perimenopause. The product is compatible with condoms

FEMAGINAL vaginal ovules are ideal for women in the:

- ✓ **Childbearing age**
- ✓ **Perimenopause**
- ✓ **Menopause**

Ingredients:

Lactic acid, Hyaluronic Acid, Polycarbophil, Tea Tree Oil, Vitamin A, E, 16-beta-glycyrrhethinic Acid

Box containing 10 vaginal ovules of 2g in blister

Shelf life zone II:
36 months

Medical Device
Class IIa

FEMAGINAL PLUS vaginal ovules

FEMAGINAL PLUS helps maintain the natural defences of the vagina and enhances the recovery of the normal vaginal flora; containing hyaluronic acid, boric acid and lactic acid it helps delete the symptoms due to unbalanced vaginal hydration and/or vaginal pH. Hyaluronic Acid in its sodium salt form at a 10 mg/ovule dosage exerts an hydrating and lubricating action against vaginal dryness contributes to restore a natural and comfortable vaginal environment. Lactic Acid normally present in the vagina favours an immediate pH correction and facilitates the natural recovery of the delicate vulvo-vaginal ecosystem. Boric Acid, thanks to its persistence in the vaginal environment favours a lowering of pH prolonged over time.

FEMAGINAL PLUS is indicated in:

- Vaginal dryness
- Vaginal burning
- Vaginal irritations
- Vaginal infections

Unique selling points

- ✓ **Most complete formula**

Ingredients:

Boric acid, Lactic acid, Polycarbophil, Hyaluronic acid, Tocopheryl acetate, Vit. A, 18-Beta-glycyrrhетиinic acid, Tea tree oil

Box containing 10 vaginal ovules of 2g in blister

Shelf life zone II: 36 months

Medical Device
Class IIa

FEMAPAUSE Stick Packs

FEMAPAUSE is a nutritional supplement specially formulated to support women dealing with PCOS (Polycystic Ovary Syndrome) during menopause. Its powerful blend of Myo-Inositol, D-Chiro Inositol, Trans-resveratrol, and Vitamin D3, which promotes hormonal balance, metabolic health, and overall well-being.

FEMAPAUSE is indicated in:

- PCOS in Menopausal Women: Provides targeted support to manage symptoms associated with PCOS during menopause.
- Hormonal Balance & Metabolic Health: Aids in regulating insulin sensitivity, inflammation, and oxidative stress.
- Overall Well-Being: Promotes improved energy levels, mood, and general wellness.

Unique selling points

- ✓ **Scientifically Backed Formula:** Combines Myo-Inositol and D-Chiro Inositol, known for their positive effects on metabolic and hormonal health.
- ✓ **Powerful Antioxidant Support:** Contains Trans-resveratrol, which offers anti-inflammatory and antioxidant properties.
- ✓ **Bone Health & Immunity:** Enriched with Vitamin D3 to support bone strength and immune function.
- ✓ **Easy & Convenient:** Packaged as 30 stick packs for precise daily dosing and convenience.

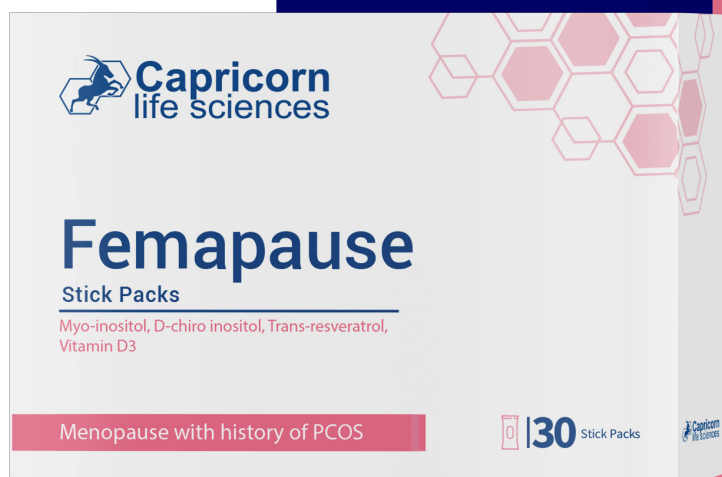

Ingredients:

Myo-Inositol, D-ChiroInositol, Trans-resveratrol, Vitamin D3

Box containing 30 stick packs

Shelf life: 24 months, zone II

Supplement

FEMASITOL sachets

FEMASITOL is an extremely well documented product, available both as food supplement and as Food for Special Medical Purposes ("FSMP") containing Myo-inositol and Folic acid that support ovulatory function, oocyte quality and menstrual cyclicity. It may be prescribed or advised before and during the 1st line of drug prescription for hypo fertility

FEMASITOL helps to:

- Correct metabolic disorders that contribute to ovarian dysfunction
- Support ovulatory function, oocyte quality & menstrual cyclicity

Unique selling points

- ✓ **Clinical efficacy demonstrated in more than 30 published clinical trials**
- ✓ **Proven effective in PCOS and improving fertility**

Ingredients:

Myo-inositol, Folic Acid

Clinical trials available

Box containing 30 sachets 2gr

Shelf life: zone IV 36 months

Food Supplement
and FSMP

FEMASITOL 2.0 sachets

Femasitol 2.0 contains an equal amount of myo-inositol to restore ovulation, optimize IVF procedures and prevents/manages gestational diabetes. The substitution of folic acid with 5-MTHF, the biologically active molecule, makes it possible to bypass MTHFR, and thus restart maternal-fetal metabolic processes and prevent neural tube defects, particularly in PCOS women at particular risk of folate deficiency. (Food for Special Medical Purposes, "FSMP")

FEMASITOL 2.0 is helpful in:

- Significantly reduce the incidence of gestational diabetes
- Beneficial not only for women with PCOS but also for those with risk factors including including a history of T2D
- The mechanism of action during gestational diabetes includes improving insulin signaling but also action on fatty acid synthesis
- As with PCOS, FEMASITOL is more relevant than metformin, which has no drug marketing approval in this indication and is less well tolerated

Unique selling points

- ✓ **Clinical efficacy demonstrated in more than 30 published clinical trials**
- ✓ **Proven effective in PCOS and improving fertility**

Ingredients:

Myo-inositol,
5-MethylTetrahydrofolates

Clinical trials available

Box containing 30
sachets 2gr

Shelf life: zone IV
36 months

FEMASITOL PLUS sachets

FEMASITOL PLUS is a FSMP containing Myo-inositol, 5-MTHF (Vitamine B9) on glucosamine salts and tyndallized Bifidobacterium animalis ssp lactis (CECT8145) for PCOS in women who also suffer from overweight: (1) The chance of pregnancy for PCOS obese patient is 63% lower than for PCOS women with normal weight; (2) 10% weight loss can increase the chance of pregnancy by 68% and (3) the probiotic Bifidobacterium animalis ssp lactis CECT8145, alive or heat-killed, reduces fat deposition via IGF-1 pathway

FEMASITOL PLUS helps to:

- Correct metabolic disorders that contribute to ovarian dysfunction
- Support ovulatory function, oocyte quality & menstrual cyclicity
- Decrease waist circumference and abdominal adiposity

Unique selling points

- ✓ **The first dedicated solution for PCOS women with overweight/obesity and/or metabolic disorders**

Ingredients:

Myo-inositol, 5-MethylTetrahydrofolates, tyndallized Bifidobacterium

Box containing 30 sachets 2gr

Shelf life: zone IV 36 months

Supplement

OSTEOCALCIN oral tablets

OSTEOCALCIN contributes to normal muscle function and maintenance of normal bone structure, in particular in postmenopausal women and the elderly

OSTEOCALCIN is indicated in:

OSTEOCALCIN helps in the maintenance of normal bone plus normal absorption and utilization of calcium and maintain normal levels of calcium in the blood

Ingredients:

Calcium, Magnesium,
Vitamin K2, Vitamin D3

Box containing 3
blisters with 10 film
coated tablets each

Shelf life: zone
II 36 months

Food Supplement

PRECARE sachets

PRECARE sachets is useful in preeclampsia and eclampsia in pregnancy, preterm delivery, polyabortion and coagulopathies in pregnancy which has been documented in a clinical trial.

PRECARE sachets is indicated in:

- Preeclampsia and Eclampsia in pregnancy
- Preterm delivery
- Polyabortion
- Coagulopathies in pregnancy

Unique selling points

- ✓ **Documented in a clinical trial**
- ✓ **L-Arginine counteracts vasoconstriction, improving blood flow and stimulating the release of growth hormone**
- ✓ **Willow produces an effect that is very similar to modern aspirin but with a low incidence of side effects**
- ✓ **Calcium lowers the risk of preeclampsia**
- ✓ **Magnesium Sulphate regulates uterine contractions and prevents preterm delivery**

Ingredients:

Calcium, Salix alba, Magnesium Sulphate, Arginine

Clinical trials available

30 sachets

Shelf life: zone II 36 months

Food Supplement

RESTOGYN-T vaginal tablets

RESTOGYN-T restores the vaginal bacterial flora and pH, reducing burning, itchiness and irritation even in case of fungal infection, keeping the natural vaginal defenses unaltered. It favors the increase in endogenous Lactobacilli, that in association to the activity on the pH, disfavours the action of pathogenic microbiotics such as Streptococci and Candida.

RESTOGYN-T is indicated in:

- Re-balance the normal vaginal flora and pH
- Prevention and control of Vulvovaginitis:
 - Bacterial
 - Fungal
 - Caused by yeast infections
- Itching, burning and irritation
- Vaginal dryness
- Long term antibiotic therapies

Unique selling points

- ✓ **Vaginal bacterial flora and pH restoration**
- ✓ **Prevention and control of vulvovaginitis (even in case of mycosis)**
- ✓ **Itching, burning and irritation**
- ✓ **Dryness**
- ✓ **Leucorrhoea**

Ingredients:

Fructo-oligosaccharides (FOS), Lactic acid, Natural (Hydrolyzed/Fermented) Mix Milk Protein, Xylitol, Tyndallized Lactobacillus

Box containing 1 blister with 10 vaginal tablets

Shelf life zone II:
24 months

Medical Device
Class I

VENONORM oral tablets

VENONORM can be used in cases of Chronic Venous Insufficiency, oedema and lymphedema and haemorrhoids.

VENONORM oral tablets is helpful in:

- **Pain** – Taking diosmin for at least 8 weeks decreases pain and might reduce the need to use rescue pain medicine similarly to receiving the standard medications mannitol and dexamethasone.
- **Chronic Venous Insufficiency** – Poor circulation that can cause the legs to swell. Research shows that taking diosmin may help to reduce pain in people with CVI
- **Lymphedema** – Swelling in the arms or legs caused by damage to the lymph system
- **Anti-oxidant effect** – Preventing damage to the liver
- **Varicose veins**

Unique selling points

- ✓ **Reduces endothelial damage**
- ✓ **Stimulated lymphatic drainage**
- ✓ **Modulates the inflammatory response**

Ingredients:

µsmin® plus diosmin, Troxerutin, Horse-chestnut d.e., Vitamin C

The efficacy of this product has been demonstrated in two clinical trials with some 200 patients.

Box containing 2 blisters of 10 tablets each

Shelf life: zone II 36 months

Food
Supplement

ABCOL gastroresistant capsules

ABCOL rebalances the intestinal bacterial flora, thus favouring a normal digestive function and is useful in Irritable bowel syndrome, functional dyspepsia, gaseous colic, digestive problems, constipation, abdominal swelling and tension and colon-pathies

ABCOL gastroresistant capsules is indicated in:

- Irritable bowel syndrome
- Functional dyspepsia
- Gaseous colic
- Digestive problems
- Constipation
- Abdominal swelling and tension
- Colonpathies

Unique selling points

- ✓ **Abcol gastroresistant capsules for an easier absorption. Through its composition, Abcol is particularly useful to treat disorders linked to the Irritable Bowel Syndrome (IBS).**

Ingredients:

Sodium butyrate, Cumin and Lactobacillus Rheuterii

One box containing 20 capsules of 800mg each in blister

Shelf life: zone II 36 months

Food Supplement

Colnorm Psyllium sachets

Colnorm Psyllium is an effective supplement designed to relieve and manage chronic and acute constipation as well as Irritable Bowel Syndrome (IBS)-related constipation. It is also beneficial for reducing excessive gastrointestinal gas, providing comprehensive digestive support.

Colnorm Psyllium is indicated in:

- Chronic and acute constipation:** Promotes easier and more comfortable bowel movements.
- Irritable bowel syndrome (IBS):** Relieves constipation associated with IBS.
- Excessive gastrointestinal gas:** Helps in the adsorption and reduction of gas buildup in the digestive tract.

Unique selling points

- Dual Action Formula:** Combines Macrogol 3350 and Psyllium for maximum effectiveness.
- Improved Stool Consistency:** Macrogol 3350 attracts water to soften stools, making them easier to pass without causing cramps, pain, or urgency.
- Natural Fiber Benefits:** The water-soluble fibers in Psyllium form a hydrating gel, promoting regular bowel function and restarting peristalsis to enhance intestinal transit.
- Gas Reduction:** Contains Simethicone, which effectively adsorbs and reduces gastrointestinal gas through its anti-foaming action.
- Gentle & Safe:** Provides natural relief without causing discomfort or emergency conditions.

Colnorm Psyllium offers a comprehensive, gentle solution for digestive issues, effectively restoring regularity and comfort.

Ingredients:

Macrogol 3350, Psyllium and Simethicone

Shelf life: zone II 36 months

Medical Device
Class IIa

Colnorm Cleansing sachets

Colnorm Cleansing is a highly effective bowel-cleansing solution formulated with Macrolog 3350 to ensure thorough gut preparation. It is designed to provide complete intestinal cleansing before endoscopic examinations or clinical procedures that require a clean and residue-free colon for accurate diagnosis.

Colnorm Cleansing is indicated in:

- Bowel cleansing before medical procedures:** Ideal for preparation before endoscopic examinations such as colonoscopies.
- Complete gut cleaning:** Suitable for any clinical condition that requires thorough intestinal cleansing and detersion.

Unique selling points

- Powerful & effective formula:** contains macrolog 3350, known for its high affinity for water, providing reliable and efficient cleansing of the colon.
- No residue left behind:** ensures complete removal of solid residues for optimal diagnostic accuracy.
- Safe & reliable:** medical-grade formula suitable for medical use, ensuring consistent and thorough results.
- Gentle on the body:** formulated to cleanse without causing significant discomfort or cramping.

Colnorm Cleansing offers a trusted, efficient, and safe solution for preparing the gut before medical examinations and procedures.

Ingredients:

Macrolog 3350

Shelf life: 36 months, zone II

Medical Device

GASTIROM Mag oral emulsion

GASTIROM Mag is useful for those patients that chronically suffer symptoms linked to the gastroesophageal reflux disease and need an extra-strong long-lasting relief, along with a practical use for everyday life.

GASTIROM Mag oral emulsion is indicated in:

- Gastroesophageal reflux disease (GERD)
- Esophagitis
- Heartburn
- Reflux coughing
- Abdominal pain

Unique selling points

- ✓ **Innovative emulsion form that provides a high compliance of the product**
- ✓ **Treatment of severe GERD: Patients whose quality of life is compromised by GERD, that have poorly controlled symptoms and are more likely to have erosive esophageal inflammation.**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **Hyaluronic Acid supports the process of reconstruction of the damaged epithelium**
- ✓ **Myrrh Extract soothes the laryngeal mucous membranes inflamed**
- ✓ **Simethicone targeted action against Reflux Gas**
- ✓ **No side effects in hypertensive or nephropathic patients**
- ✓ **Ready to use practical oral administration even away from home**

Ingredients:

Low molecular weight Hyaluronic acid Sodium Salt, Magnesium Alginate, Myrrh d.e. tit. 30% Polysaccharides, Arabic Gum, Xanthan Gum, Guar Seeds Flour, Silicon Dioxide, Tocopherol, Simethicone

Oral emulsion 15ml in 12 stick sachets

Shelf life zone II: 24 months

GASTUCALM oral solution

GASTUCALM is useful for those patients that occasionally suffer from symptoms linked to the gastroesophageal reflux disease and need a fast and long-lasting relief. It contains Sodium alginate, which creates a viscous barrier capable of preventing the contents of the stomach from rising towards the oesophagus.

GASTUCALM oral solution is indicated in:

-  Mild gastroesophageal reflux disease (GERD)
-  Reflux coughing
-  Esophagitis
-  Abdominal pain
-  Heartburn

Unique selling points

- ✓ **Treatment of mild GERD For patients who experience mild symptoms once or twice a month**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **Sodium alginate targeted action exercees a mechanic block of gastroesophageal reflux**

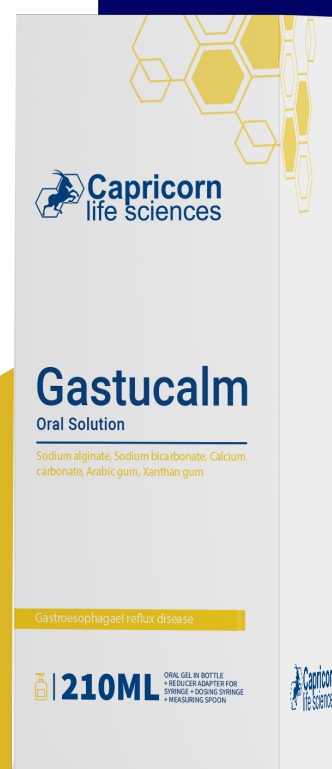

Ingredients:

Sodium Alginate, Sodium Bicarbonate, Calcium Carbonate, Arabic Gum, Xanthan Gum

210ml oral gel in bottle, reducer adapter for syringe, dosing syringe and measuring spoon Available 210 ml or 300 ml size

Shelf life zone II: 24 months

Medical Device
Class IIa

GASTUCALM PLUS oral gel

GASTUCALM Plus is useful for those patients that chronically suffer symptoms linked to the gastroesophageal reflux disease and need an long-lasting relieve. It contains Hyaluronic Acid, which hydrates and protects the mucous membranes of the gastroesophageal tract and supports the process of reconstruction of the damaged epithelium.

GASTUCALM PLUS oral solution is indicated in:

- Gastroesophageal reflux disease (GERD)
- Reflux coughing
- Esophagitis
- Abdominal pain
- Heartburn

Unique selling points

- ✓ **Treatment of severe GERD. Patients whose quality of life is compromised by GERD, that have poorly controlled symptoms and are more likely to have erosive oesophageal inflammation.**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **Simethicone targeted action against reflux gas**
- ✓ **Hyaluronic acid supports the process of reconstruction of the damaged epithelium**
- ✓ **Myrrh extract soothes the laryngeal mucous membranes inflamed**

Ingredients:

Low molecular weight Hyaluronic acid Sodium Salt, Magnesium Alginate, Sodium Alginate, Simethicone, Myrrh d.e. tit. 30% Polysaccharides, Arabic Gum, Xanthan Gum, Guar Seeds Flour

Oral gel in bottle, reducer adapter for syringe, dosing syringe and measuring spoon Available 210 ml or 300 ml size

Shelf life zone II: 24 months

GASTUFLUX oral gel

GASTUFLUX is useful for those patients that occasionally suffer from symptoms linked to the gastroesophageal reflux disease and need a fast and long-lasting relief. It contains Simethicone, which reduces the surface tension of the gases present in the gastric liquid, thus favouring their elimination.

GASTUFLUX oral gel is indicated in:

- Gastroesophageal reflux disease (GERD)
- Esophagitis
- Heartburn
- Reflux coughing
- Abdominal pain

Unique selling points

- ✓ **Treatment of mild GERD: For patients who experience mild symptoms once or twice a month**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **No side effects in hypertensive or nephropathic patients**
- ✓ **Simethicone targeted action against reflux gas**

Ingredients:

Magnesium Alginate, Simethicone, Xanthan Gum, Guar Seeds Flour, Arabic Gum

210ml oral gel in bottle, reducer adapter for syringe, dosing syringe and measuring spoon
Available 210 ml or 300 ml size

Shelf life zone II: 24 months

Medical Device
Class IIa

GASTUSEN oral gel

GASTUSEN is useful for those patients that occasionally suffer from symptoms linked to the gastroesophageal reflux disease and that need a practical support in the everyday life.

GASTUSEN oral gel is indicated in:

- Gastroesophageal reflux disease (GERD)
- Reflux coughing
- Esophagitis
- Abdominal pain
- Heartburn

Unique selling points

- ✓ **Treatment of mild GERD: For patients who experience mild symptoms once or twice a month**
- ✓ **No side effects in hypertensive or nephropathic patients**
- ✓ **Hyaluronic acid supports the process of reconstruction of the damaged epithelium**
- ✓ **Myrrh extract soothes the laryngeal mucous membranes inflamed**
- ✓ **Ready to use practical oral administration even away from home**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**

Ingredients:

Low molecular weight Hyaluronic Acid Sodium Salt, Magnesium Alginate, Mhyrr d.e. tit.

30% Polysaccharides, Guar Seeds Flour, Arabic Gum, Xanthan Gum

Oral gel in stick pack sachets of 15 ml each.

Available in 12 or 24 stick pack boxes

Shelf life zone II: 24 months

Medical Device
Class IIa

GASTUSEN Plus gel in stickpacks

GASTUSEN Plus is useful for those patients that chronically suffer from symptoms linked to the gastroesophageal reflux (moderate GERD for patients experience more frequent symptoms requiring daily administration).

GASTUSEN Plus oral gel is indicated in:

- Gastroesophageal reflux disease (GERD)
- Reflux coughing
- Esophagitis
- Abdominal pain
- Heartburn

Unique selling points

- ✓ **Treatment of moderate GERD: Patients experience more frequent symptoms requiring daily administration**
- ✓ **No side effects in hypertensive or nephropathic patients**
- ✓ **Hyaluronic acid supports the process of reconstruction of the damaged epithelium**
- ✓ **Myrrh extract soothes the laryngeal mucous membranes inflamed**

- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**

Ingredients:

Low molecular weight Hyaluronic Acid Sodium Salt, Magnesium Alginate, Mhyrr d.e. tit. 30% Polysaccharides, Guar Seeds Flour, Arabic Gum, Xanthan Gum

Oral gel in stick pack sachets of 15 ml each.

Available in 12 or 24 stick pack boxes

Shelf life zone II: 24 months

Medical Device
Class IIa

GASTUSOD oral emulsion

GASTUSOD is useful for those patients that chronically suffer from symptoms linked to the gastroesophageal reflux disease and need an extra-strong long-lasting relief.

GASTUSOD oral emulsion is indicated in:

- Gastroesophageal reflux disease (GERD)
- Reflux coughing
- Esophagitis
- Abdominal pain
- Heartburn

Unique selling points

- ✓ **Treatment of severe GERD: Patients whose quality of life is compromised by GERD, that have poorly controlled symptoms and are more likely to have erosive esophageal inflammation.**
- ✓ **Barrier effect on the Gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **Hyaluronic acid supports the process of reconstruction of the damaged epithelium**
- ✓ **Myrrh extract soothes the laryngeal mucous membranes inflamed**
- ✓ **Simethicone targeted action against Reflux Gas**
- ✓ **Sodium alginate targeted action a mechanic block of gastroesophageal reflux**

Ingredients:

Low molecular weight Hyaluronic Acid Sodium Salt, Sodium Alginate, Myrrh e.s. tit. 30%

Polysaccharides, Arabic Gum, Xanthan Gum, Silicon Dioxide, Tocopherol, Simethicone

Oral gel in bottle + reducer adapter for syringe
+ dosing syringe + measuring spoon
Available 210 ml or 300 ml size

Shelf life zone II: 24 months

Medical Device
Class IIa

INDINORM capsule-in-capsule

INDINORM, digestive product with a capsule-in-capsule dual release system (food supplement), allowing the delivery of the right enzymes to the right medium, with various applications:

- ✓ Functional indigestion due to digestive enzyme deficiency or imbalance, with such symptoms as dyspepsia, postprandial discomfort, epigastric fullness, and flatulence;
- ✓ Functional indigestion associated with pregnancy
- ✓ Functional digestive secretory function due to disease (as in chronic gastritis, pancreatitis, and enteritis) or surgery on the stomach, small intestine, pancreas and post gastrectomy syndrome
- ✓ Digestive disturbances associated with some chronic diseases
- ✓ Loss of appetite
- ✓ Anorexia nervosa

INDINORM is indicated in:

- Pancreatic Secretion Problems
- Digestive Surgery
- Crohn Disease
- Pregnancy

Unique selling points

- ✓ **INDINORM is the only digestive product with capsule in capsule dual release system, allowing the delivery of the right enzymes to the right medium.**
- ✓ **It contains one of the widest ranges of enzymes available on the market (8 enzymes) and**
- ✓ **Contains one of the highest concentration of enzymes available on the market**
- ✓ **The efficacy of this product has been demonstrated in a clinical trial**

Ingredients:

Lipase, Amylase, Glucoamylase, Alpha-galactosidase, Proteolytic enzymes

Clinical trials available

Box containing 2 blisters of 10 capsules each

Shelf life zone IVb: 24 months

MICRODUO Antireflux oral solution

MICRODUO Antireflux is useful for those patients that occasionally suffer from symptoms linked to the gastroesophageal reflux disease and need a fast relief from heartburn

MICRODUO Antireflux oral solution is indicated in:

- Mild Gastroesophageal reflux disease (GERD)
- Esophagitis
- Heartburn
- Reflux coughing
- Abdominal pain

Unique selling points

- ✓ **Treatment of mild GERD: For patients who experience mild symptoms once or twice a month**
- ✓ **Barrier effect on the gastroesophageal Tract forms a protective film on gastrointestinal mucosa against the action of gastric acid**
- ✓ **Simethicone targeted action against reflux gas**
- ✓ **Sodium alginate targeted action a mechanic block of gastroesophageal reflux**

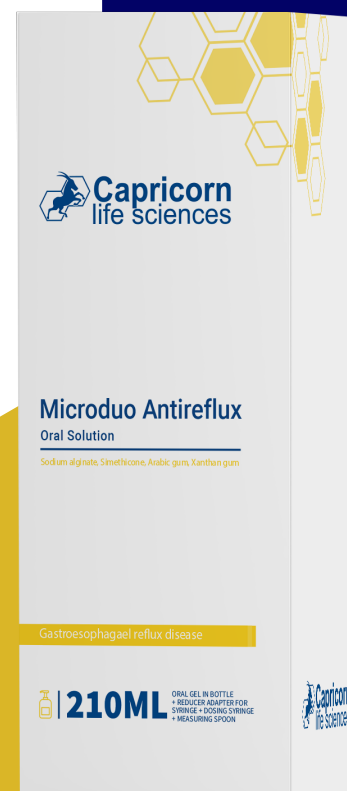

Ingredients:

Sodium Alginate, Simethicone, Arabic Gum, Xanthan Gum

Oral gel in bottle + reducer adapter for syringe + dosing syringe + measuring spoon
Available 210 ml or 300 ml size

Shelf life zone II: 24 months

Medical Device
Class IIa

CAPRICALM Teething gel

CAPRICALM Teething gel forms a protective barrier on the gums helping to prevent redness and irritation, promoting oral cavity hygiene oral and giving relief and freshness.

CAPRICALM Teething gel is indicated in:

- Teething: biting urge; increased salivation; feeling of pain
- Oral cavity hygiene
- Barrier effect
- Giving relief and freshness

Unique selling points

- ✓ **Xylitol: beneficial to dental health, reduces caries, helps dental remineralization**
- ✓ **Chamomile extracts: carries out an antibacterial and sanitizing action throughout the oral cavity;**
- ✓ **Calendula: disinflammatory and soothing.**

Ingredients:

Aloe vera, Calendula, Chamomilla, Honey, Xylitol

20ml in tube

Shelf life: zone II 36 months

CAPRICALM Soothing Paste

CAPRICALM Soothing Paste is the ideal soothing paste to use with every diaper change. It is suitable for the daily protection of your child's delicate skin, helping to prevent redness and irritation. Based on Zinc Oxide (10%) and D-Panthenol (5%).

CAPRICALM Soothing Paste is indicated in:

- Soothing
- Protective action
- Refreshing action
- Defends the skin from external aggressions
- Breathable action
- Delicate skin's protection
- Promotes the natural regeneration of the skin

Unique selling points

- ✓ **Mild action: Useful for every diaper change; ideal for: infants, bedridden, disabled and elderly people long lasting protection**

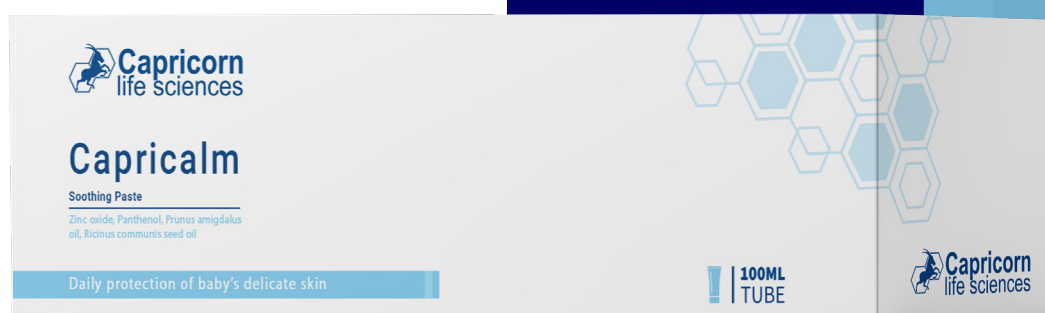

Ingredients:

Zinc oxide, Panthenol, Prunus amigdalus oil, Ricinus communis seed oil

100ml in tube

Shelf life: zone II 36 months

Cosmetic

Colnorm sachets

Colnorm is a gentle yet effective laxative designed specifically for children suffering from chronic constipation. Formulated with Macrogol 3350, this product provides safe and reliable relief without causing discomfort or urgency.

Colnorm is indicated in:

- Chronic Constipation in Children: Ideal for managing and relieving constipation in a gentle and effective way.

Unique selling points

- ✓ **Safe & Gentle Formula:** Specially designed for children using Macrogol 3350, known for its high affinity for water to soften stools and promote easy evacuation.
- ✓ **No Cramping or Urgency:** Ensures a smooth and comfortable bowel movement without painful cramps.
- ✓ **Medical Device Class IIa:** Ensures high-quality standards and proven effectiveness.
- ✓ **Suitable for Regular Use:** Non-addictive and gentle enough for consistent use when needed.

Colnorm offers a trusted solution for constipation relief in children, ensuring safe, effective, and gentle support for their digestive health.

Ingredients:

Macrogol 3350

DORMANORM oral drops

DORMANORM drops is specifically formulated to help children have peaceful rest and good night sleep, which during infancy is important for the correct development of babies.

DORMANORM is indicated in:

DORMANORM contributes to the reduction of the time required to get to sleep. The beneficial! effect is obtained by taking just before bedtime.

Unique selling points

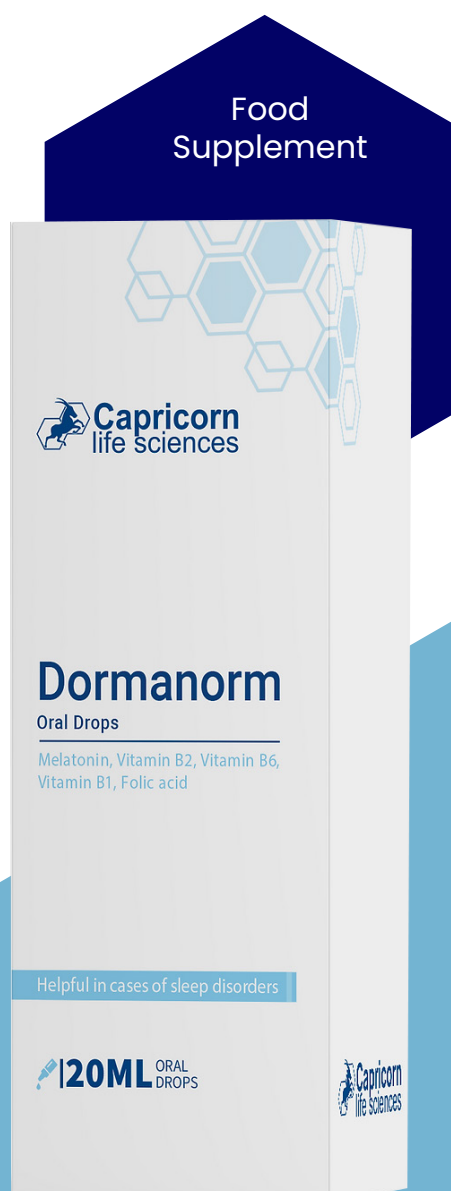

- ✓ **Sweet and pleasant taste**
- ✓ **Easy administration (can be applied to the pacifier)**

Ingredients:

Manioc syrup, Apple juice, Red fruit juice, Melatonin, Vitamin B2, Vitamin B6, Vitamin B1, Folic Acid

Box containing
1 bottle of 20ml
oral drops

Shelf life: zone
II 36 months

ENGIA oral vials

ENGIA vials is useful as a metabolic and energetic stimulus, helps to improve concentration and cognitive functions and relieves sensations due to stress and fatigue

ENGIA oral vials is indicated in:

- Iron, Vitamin B1, B2, B5, PP and C contribute to normal energy-yielding metabolism
- Vitamin D supports the normal function of the immune system
- Vitamin B2, B5, B6, PP and C help reducing tiredness and fatigue

Unique selling points

- ✓ **The efficacy of this product has been documented in a clinical trial**
- ✓ **Easy administration**
- ✓ **Practical packaging**
- ✓ **Does not need to be stored in a fridge**

Ingredients:

Fresh royal jelly, Vitamin B complex (B1, B2, B5, B6), Vitamin D3, Vitamin PP, Vitamin C, Iron, and Glutamine

Clinical trials available

Box containing 10 single-dose-vials of 10ml with pre-cut on the neck.

Shelf life zone II: 24 months

Food Supplement

FERROKIDS oral drops

FERROKIDS drops is useful in case of lacking or in increased need of iron and as energetic stimulus. It supports the immune system, formation of red blood cells and haemoglobin and relieve from tiredness.

FERROKIDS oral drops is indicated in:

- Iron deficiency
- Reduced Iron intake or increased need due to:
 - Dietary imbalance
 - Pregnancy
 - Menstrual flow
 - Celiac disease
- Iron, Folic Acid and Copper are useful to the normal function of the immune system.
- In addition, Iron contributes to:
 - Cognitive function and cognitive development of children
 - Energy metabolism
 - The normal formation of red blood cells and haemoglobin
 - Oxygen transport in the body, and to the reduction of tiredness and fatigue
- Folic acid contributes to:
 - Maternal tissues growth during pregnancy
 - Normal haematopoiesis
 - Normal psychological function
 - The reduction of tiredness and fatigue
- Copper contributes to:
 - The normal transport of iron in the body
 - Normal energy metabolism
 - Maintenance of normal connective tissues
 - The protection of cells from oxidative stress
 - Functioning of the nervous system

Unique selling points

- ✓ **Suitable for adults and children**
- ✓ **Healthy development**

Ingredients:

Copper, Folic Acid, Iron from Microemulsified Iron®

Box containing 1 bottle of 30ml oral drops

Shelf life zone II: 24 months

MAGNICAP oral drops and oral spray

MAGNICAP is indicated in the treatment and in the prevention in case of: dyspeptic disorders, gastroenteric meteorism, aerophagia and gas colics in infants, children and adults. MAGNICAP is useful to relieve symptoms of extra gas caused by air swallowing or certain foods/infant formulas. It helps break up gas bubbles in the gut.

MAGNICAP oral drops and oral spray are indicated in:

- Dyspeptic disorders
- Gastroenteric meteorism
- Aerofagy
- Gas colic

All for in infants, children and adults

Unique selling points

- ✓ **Excellent strawberry taste**
- ✓ **Easy administration**
- ✓ **Can be given to babies**
- ✓ **MDR approved**

Ingredients:

Simeticone water based

20ml drops/spray,
50ml drops/spray

Shelf life zone II:
24 months

Medical Device
Class IIa

MICRODUO oral suspension in drops

MICRODUO oral drops of *Saccharomyces Booulardii* works for the restoration of normal gastrointestinal environment and Simeticone with anti-foaming activity for infants, children and adults.

MICRODUO oral suspension in drops is indicated in:

- Dyspeptic disorders
- Gastroenteric meteorism
- Aerofagy
- Gas colic

in infants, children and adults

Unique selling points

- ✓ **Excellent strawberry taste**
- ✓ **Easy administration**
- ✓ **Can be given to babies**
- ✓ **MDR approved**

Ingredients:

Simethicone water based, *Saccharomyces Boulardii*.

Box containing 1 bottle of 20ml oral drops with a dropper

Shelf life zone II:
24 months

MICRODUO is a system device consisting of the Medical Device Simethicone drops and the Food Supplement *Saccharomyces Boulardii*.

MICRONORM oral drops

MICRONORM oral drops is a food supplement based on Lactobacillus Reuteri able to support the balance of intestinal flora.

MICRONORM oral drops is indicated in:

- Gas colic
- Gastritis
- Diarrhea
- Intestinal disorders

Unique selling points

- ✓ Can be dilutable in milk and juice
- ✓ Easy administration
- ✓ Gluten free
- ✓ Preservatives free

Ingredients:

Lactobacillus reuteri SGL01

10ML drops

Shelf life zone II: 24 months

NEOHYDRON oral sachets

NEOHYDRON sachets is a food supplement based on mineral salts, useful in cases of reduced dietary intake or increased need of these nutrients.

NEOHYDRON sachets is indicated in:

- Regulates blood pressure
- Fluid and mineral balance
- Energy booster
- Antibiotic therapies

Unique selling points

- ✓ **Easy to use for infants, children and adults**

Ingredients:

Sodium, Potassium, Citrates,
Chloride, Glucose

12 sachets of 20
ml oral solution

Shelf life: zone
II 36 months

NAUHYDRON sachets

NAUHYDRON sachets is a food supplement based on ginger, vitamins and minerals. Thanks to its composition it is helpful in contrasting nausea and in reintegrate vitamins and mineral after vomiting.

NAUHYDRON sachets is indicated in:

- Antinauseants action
- Digestive function
- Gastrointestinal motility
- Rehydration/Mineralizing (ORS)
- Reduce the tiredness and fatigue

Unique selling points

- ✓ **Ideal for children**
- ✓ **Cola and lemon flavor**
- ✓ **Gluten free**
- ✓ **Lactose free**

Ingredients:

Glucose, Ginger extract, Sodium Chloride, Potassium Citrate, Sodium Citrate, Vitamin B2, Vitamin B6, Vitamin B1.

10 single-dose-stick-packs of 15ml each

Shelf life: zone II 36 months

NAUCAP Oral Drops

NAUCAP drops is based on SOFALENINA® and thanks to its anti-nausea action, it is particularly indicated to address reflux symptoms

NAUCAP drops is indicated in:

- Nausea and vomiting
- Anxiety induced nausea
- Gastroesophageal reflux
- Heartburn
- Abdominal tension
- Chemotherapy-induced Nausea

Unique selling points

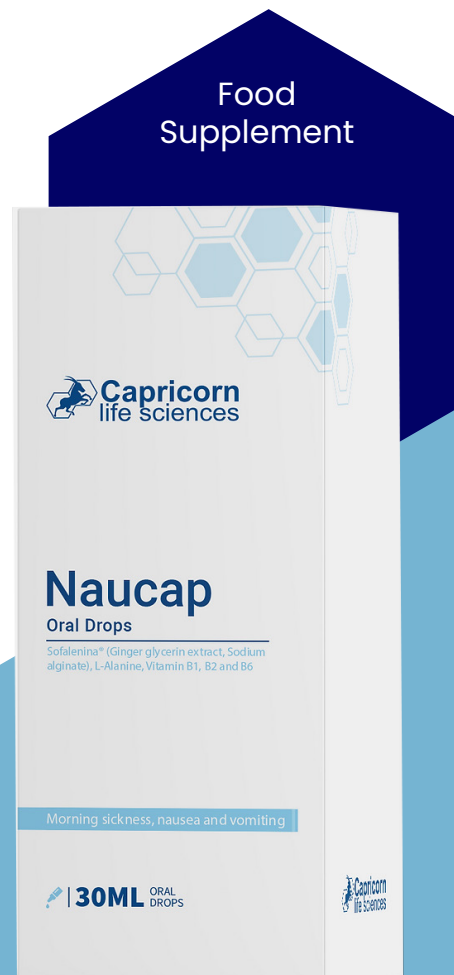

- ✓ **Naucap contains SOFALENINA®, an innovative composition which provides a targeted action**
- ✓ **Easy administration (can be applied to the pacifier)**

Ingredients:

SOFALENINA® (extract glycerin Ginger, Sodium alginate), L-Alanine, Vitamin B1, Vitamin B2 and Vitamin B6

Box containing 1 bottle of 20ml oral drops

Shelf life: zone II 36 months

ATRONI emulgel

ATRONI gel is helpful in providing relief in case of muscle, joint and rheumatic pain.

ATRONI emulgel is indicated in:

- Arthrosis
- Tendonitis
- Rheumatism
- Myofascial syndrome
- Painful joint manifestations

Unique selling points

- ✓ **Ozonated olive oil: Soothes sore or strained muscles**
- ✓ **Menthol: Leaves a fresh feeling on the skin**
- ✓ **Arnica: Effective for the treatment of bruises, contusions, ecchymoses and sprains due to the valuable mix of substances that make it the main remedy against pain**

Ingredients:

Ozonized olive oil, Escin phytosomal, Arnica, Harpagophytum, Hyaluronic acid, Panthenol, Vitamin E, Camphor, Menthol, Betasitosterol

100ml emulsion

Shelf life zone II: 24 months

Medical Device
Class I

ATRONI sachets

ATRONI sachets is useful in the promotion of the articular cartilage normal function. It is capable to stimulate the collagen formation and to provide a support for those patients that suffer painful joint manifestations including muscle soreness, improvement of physical function, Sciatic nerve pain, localized states of tension.

ATRONI sachets is indicated in:

- Muscle soreness
- Improvement of physical function
- Sciatic nerve pain
- Localised states of tension

Unique selling points

- ✓ **Methylsulfonylmethane- Acts as a stimulator on cartilage synthesis → reduces pain and restores joint mobility**
- ✓ **Promotes protein synthesis and is helpful for tendons and joints. decreases muscular catabolism and promotes**
- ✓ **Contains Collagen which is naturally present in the body tissues**
- ✓ **Vitamin C contributes to the formation of collagen → normal function of the cartilages**

Ingredients:

Methylsulfonylmethane (MSM), L-ornithine
alpha-ketoglutarate, Type I collagen,
Vitamin C

Box containing 20
sachets of 4g each

Shelf life: zone
II 36 months

Food
Supplement

CAPRIFLEX prefilled syringes 2ML

CAPRIFLEX prefilled syringes, injectable hyaluronic acid plus MSM, designed for intra-articular use, to combat pain and reduced mobility caused by traumatic or degenerative articular alterations of knee or other synovial joints.

CAPRIFLEX is indicated in:

CAPRIFLEX acts as a substitute of synovial fluid into joints affected by degenerative or mechanical osteoarthritis that gives pain or reduced mobility

Unique selling points

- ✓ **Though the addition of Methylsulfonylmethane in the formulation, the formulation has additional**
 - ◆ **Anti-inflammatory properties**
 - ◆ **Anti-oxidative properties that improves the efficacy and stability of the hyaluronic acid.**
- ✓ **3 clinical studies available, including one evaluating the anti-inflammatory activity of hyaluronic acid + Methylsulfonylmethane versus hyaluronic acid 2% and versus crosslinked hyaluronic acid and versus hyaluronic acid + sorbitol.**
- ✓ **Patented formulation**

Clinical trials available

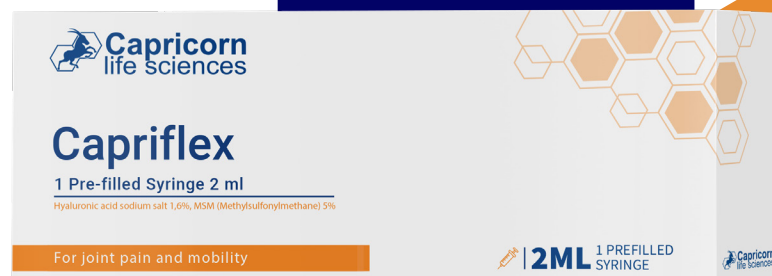

Ingredients:

Hyaluronic acid 1.6%,
Methylsulfonylmethane 5%

Box with 1 prefilled
syringe

Shelf life: zone

Medical Device
Class III

CARTICORN prefilled syringes

CARTICORN prefilled syringes, injectable Hyaluronic Acid of biotechnological origin, designed for intra-articular use, to combat pain and reduced mobility caused by traumatic or degenerative articular alterations of knee or other synovial joints.

CARTICORN is indicated in degenerative articular affection:

- Knee osteoarthritis
- Post-traumatic articular affection
- Gonarthrosis
- Sports injuries
- Accidental falls and trauma

Unique selling points

- ✓ **Less pain during the injection**
- ✓ **Pre-measured doses**
- ✓ **High level of accuracy**
- ✓ **Reduced dosing and medication errors**
- ✓ **Reduced risk of microbial contamination**
- ✓ **The concentration of HA molecules in CARTICORN 2% offers more protection to synovial fluid and allows increased viscoelastic properties to the joint cartilage in times of increased stress. synovial fluid and allowed.**

PRONUTIM sachets

PRONUTIM is useful in nutritional deficiencies with increased requirements and/or consumption of glutathione and in all cases in which support of the immune system is necessary, e.g.: oncology and immunocompromised patients, chemo- or radiotherapy, malnutrition caused by dialysis, lean mass loss (sarcopenia), aging, degenerative diseases, pre and post important surgeries

PRONUTIM sachets is indicated in:

PRONUTIM is a protein module, particularly rich in the precursor of glutathione, useful in nutritional deficiencies with increased requirements and/or consumption of glutathione and in all cases in which support of the immune system is necessary, e.g.:

- Oncology and immunocompromised patients chemo- or radiotherapy
- Ageing
- Malnutrition caused by dialysis
- Degenerative diseases
- Lean mass loss (sarcopenia)
- Pre and post important surgeries

Unique selling points

PRONUTIM is a unique Whey Protein Isolate, high in native cysteine, produced by an exclusive microfiltration and spray drying process, to ensure protein integrity and cysteine bioavailability as glutathione precursor:

- ✓ **High purity, remarkable guaranteed titration = 92.5%**
- ✓ **High biological value protein**
- ✓ **PRONUTIM has the regulatory status of FSMP (Food for Special Medical Purposes), as diet for people suffering from severe deficiency of proteins and/or glutathione, which can lead to a variety of health problems.**

Clinical trials available

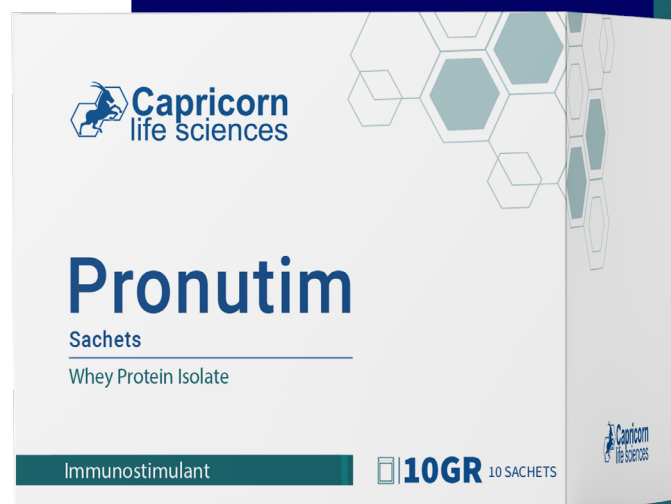

Ingredients:

Whey Protein Isolate

ARTERINORM capsules

ARTERINORM capsules is beneficial for the physiological control of cholesterol plasma levels. The efficacy of this product is documented by a number of published clinical trials with a total of more than 1500 patients.

ARTERINORM is indicated in

- Primary hypercholesterolemia IIa and IIb type
- Combined hypercholesterolemia and hypertriglyceridemia, hyperproteinemia reluctant to correction with special diet and exercise
- Diabetes
- Ischemic heart disease
- Myocardial infarction preventive measures
- Reducing the risk of death
- Slowing the progression of atherosclerosis
- Reduced risk of revascularization procedures
- Cerebrovascular disease

Unique selling points

✓ Triple strike at hypercholesterolemia:

- Decreases the synthesis of cholesterol LDL* (the most atherogenic fraction of cholesterol), triglycerides and increases HDL levels* (anti-atherogenic lipoproteins)**
- Lowers blood homocysteine**
- Has an anti-oxidant effect**

✓ Efficacy is proven in a clinical several trials with in total more than 1500 patients

Ingredients:

Monascus purpureus, Linear aliphatic alcohols, Green tea, Vitamin E, Vit. B12 (Cyanocobalamine), Folic acid

Clinical trials available

Box containing 3 blisters of 10 capsules each.

Shelf life: zone II 36 months

ARTERINORM 2.0 capsules

ARTERINORM 2.0 capsules is a new formula in line with new EU-regulations, effective against hypercholesteremia with efficacy proven in a clinical trial

ARTERINORM 2.0 capsules is indicated in:

Mild and moderate hypercholesterolemia

Unique selling points

- ✓ **Formula is in line with latest EU-regulations**
- ✓ **Efficacy is proven in a clinical trial**

Ingredients:

Niacin, Folic acid, Vitamin E, Vit. B6, Vit. B12, Monascuspurpureus, Olea europaeae.s. Linear aliphatic alcoholst. Green tea

Clinical trials available

Muconis Flu Nasal Spray

Muconis Flu Nasal Spray is a highly effective nasal decongestant designed to relieve symptoms of acute, subacute, and chronic inflammation of the upper respiratory tract. With its powerful formulation of N-acetylcysteine and hypertonic saline solution, it helps to fluidify and mechanically remove mucus and mucopurulent secretions from the nasal cavity and paranasal sinuses, promoting natural breathing and comfort.

Muconis Flu Nasal is indicated in:

- Fluidification of Airway Secretions: Breaks down thick mucus for easier clearance.
- Decongestion of Nasal Mucosa: Relieves nasal blockage and promotes free breathing.
- Mucociliary Clearance Support: Enhances the body's natural process of clearing mucus.
- Relief of Respiratory Inflammation: Effective against acute, subacute, and chronic upper respiratory tract inflammation.

Unique selling points

- ✓ **Powerful Mucus Removal:** Combines N-acetylcysteine and hypertonic saline solution for effective mucus fluidification and removal.
- ✓ **Mechanical Action:** Provides natural relief through physical mechanisms, making it a safe choice for frequent use.
- ✓ **Broad Application:** Effective for various respiratory issues including sinusitis, colds, and congestion-related conditions.
- ✓ **Convenient & Easy-to-Use:** Packaged as a 20 ml nasal spray, perfect for daily use.

Muconis Flu Nasal Spray offers a gentle, yet powerful solution to alleviate respiratory discomfort and promote clearer breathing.

Ingredients:

N-acetylcysteine and hypertonic saline solution

Shelf life: 24 months, zone II

MUCONIS sachets

MUCONIS sachets for respiratory diseases with viscous hypersecretion, respiratory diseases with painful inflammation and respiratory diseases with bacterial infection as it fluidifies mucus and increases clearance, turns off airway inflammation and secretion and counteracts biofilms and antibiotic resistance.

MUCONIS sachets is helpful in cases of hypersecretive inflammations:

- Sinusitis & ear infections
- Common cold symptoms
- Tonsillitis, Laryngitis & Pharyngitis
- Bronchitis, Bronchiectasis and Pneumonia

Unique selling points

- ✓ **Supported by clinical studies**
- ✓ **Indicated from 2 years old**
- ✓ **Adjuvant to corticosteroid therapies**
- ✓ **Patient compliance**

Ingredients:

N-acetylcysteine, Enzymes from fermented maltodextrins, Riboflavin and Vitamin C

Box containing
20 sachets

Shelf life zone
II: 24 months

Food
Supplement

ISITOL sachets

ISITOL sachets is used for the treatment of infertility in men

ISITOL is indicated in:

 Male infertility

Unique selling points

- ✓ **The only dietary supplement combining myo-inositol to a versatile antioxidant complex**
- ✓ **Efficacy documented in clinical trial**

Ingredients:

Myo-inositol, N-acetyl-cysteine (NAC), Zinc 15 mg, Vitamin E, Vitamin B3, Vitamin B6, Vitamin B2, 5-mTHF (Vitamin B9)

NUROM bi-layer controlled release tablets

NUROM is effective in the prevention and treatment of (diabetic) neuropathy. NUROM can also be used in Peripheral Neuropathies: due to compression, trauma, inflammation, resulting in the use of other drugs, pain after surgery.

NUROM is indicated in:

Alpha-lipoic acid is a co-factor in vital reactions that produce energy for the body. Carnosine is present in rather high concentration in excitable tissues, including the nervous tissue and the musculoskeletal tissue. Vitamin PP, B6, B1, B2 and B12 complex contributes to the normal functioning of the nervous system and, with the help of Vitamin B5, to the normal energy metabolism. In particular, Vitamin B2 assists the normal functioning of the nerves and contributes, together with Zinc, to the protection of cells against oxidative stress.

Unique selling points

- ✓ **For (diabetic) neuropathy and neuropathic pain**
- ✓ **Double layer tablets to ensure both an immediate relief and a long lasting recovery**
- ✓ **Excellent patient compliance (1 tab once daily)**

Ingredients:

Alpha-Lipoic Acid, Carnosine, Zinc, Vit. PP, Vit. B5, Vit. B6, Vit. B2, Vit. B1, Vit. B12, Folic Acid

Clinical trials available

Box containing 2 blisters of 10 tablets each

Shelf life: zone II 36 months

Food Supplement

DOMA AFFRON capsules

DOMA AFFRON capsules is effective against stress and depression as proven in the clinical study.

DOMA AFFRON is indicated in:

📌 Depression, stress and anxiety

Unique selling points

The only natural product with proven therapeutic results comparable to pharmaceutical solutions:

- ✓ **The most studied natural antidepressant in the market**
- ✓ **Extensive studies have demonstrated effectiveness as a standalone solution to treat**
- ✓ **Stress and anxiety**
- ✓ **As an adjuvant therapy for longterm antidepressant users**
- ✓ **Adds value by increasing antidepressant effect and reducing traditional side effects**

Ingredients:

Affron, Vitamin B12, Vitamin B6, Cholecalciferol

Clinical trials available
